

2014 City of Burbank *Lights...Camera... Action!* Rose Parade® Float. Concept drawing courtesy of City of Burbank

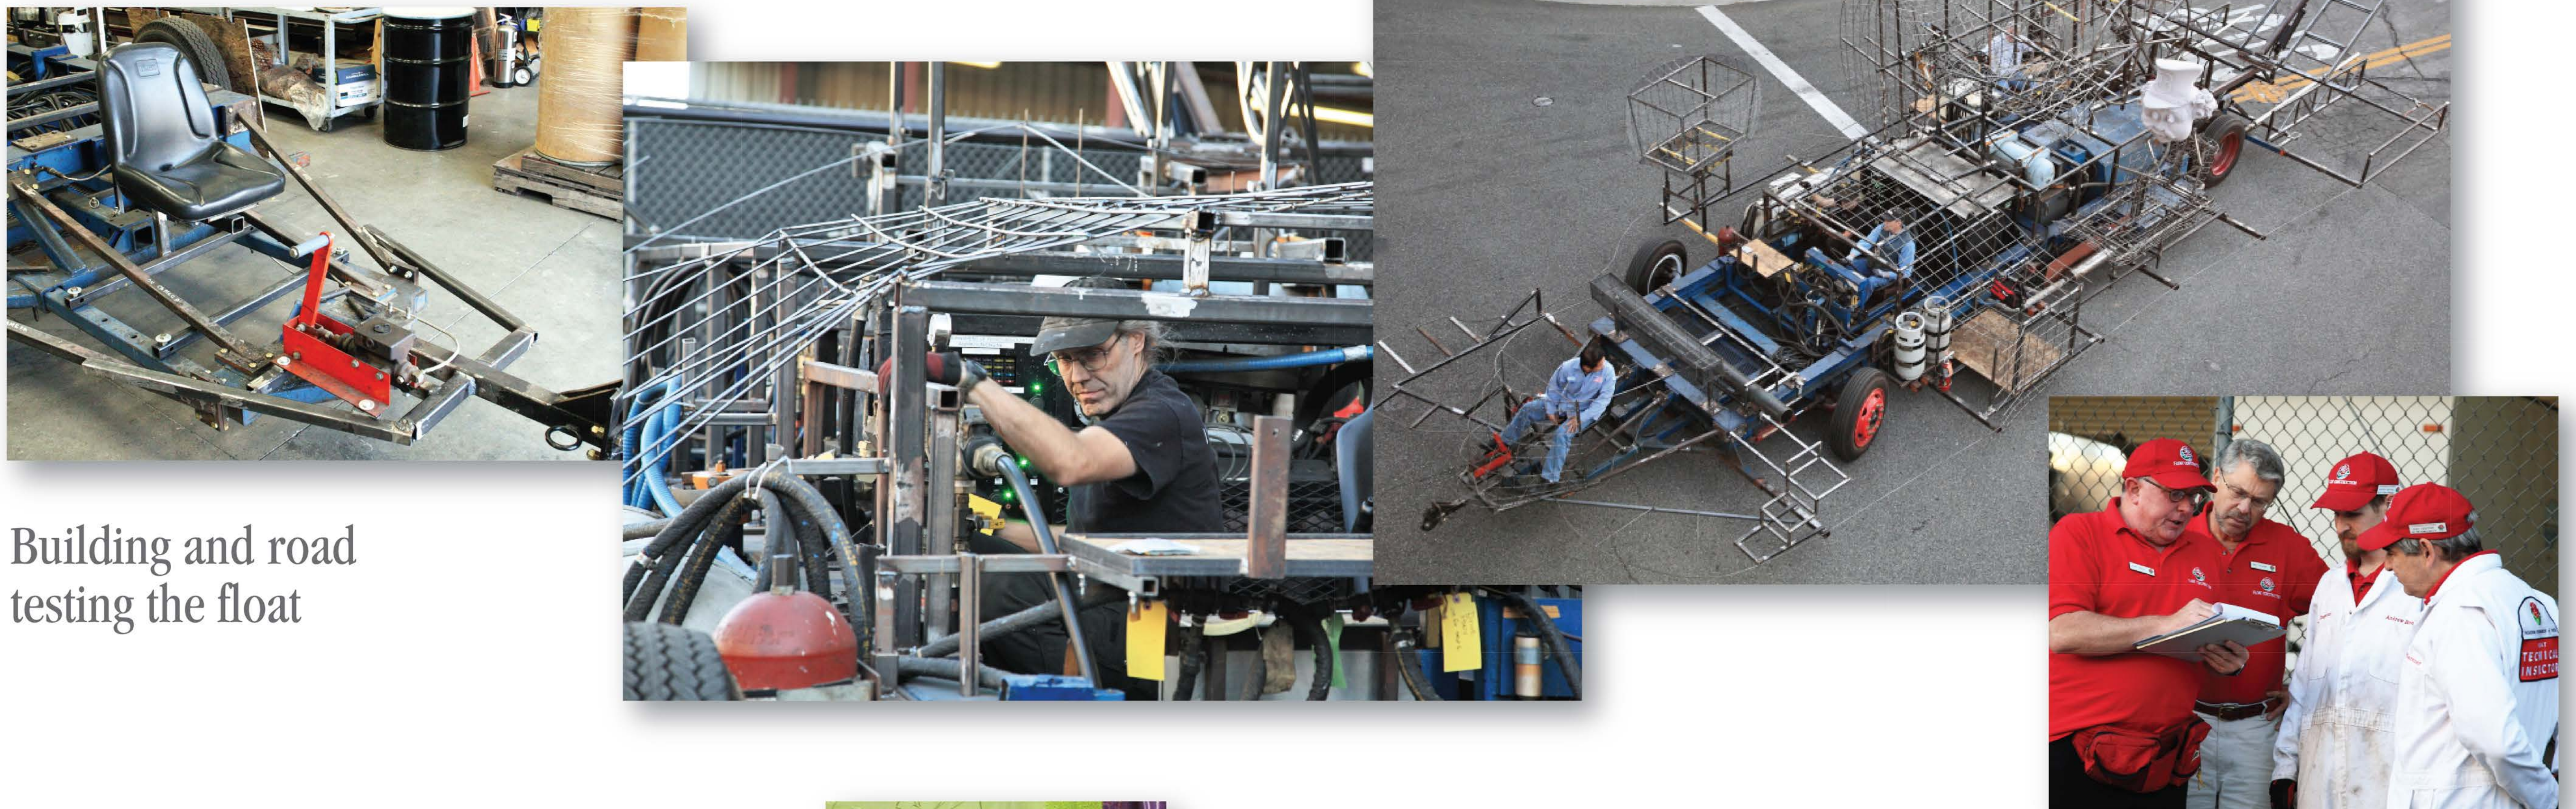

SELF-BUILT FLOATS

Self-built floats are financed, built and decorated entirely by volunteers and donations. Organizations that enter self-built floats include the Cities of Burbank, Downey, La Cañada-Flintridge, Sierra Madre, South Pasadena and the Cal Poly Universities at Pomona and San Luis Obispo.

The photos below document the design and building of the 2014 Rose Parade® self-built float *Lights...Camera... Action!* entered by the City of Burbank.

Concept sketches, scale elevations and custom soundtrack CD cover

Building and road testing the float

Sculpting, assembling and decorating the float components
